BharatCares (CSRBOX Group)
AICTE Internship Offer Letter

Dear Mr./Ms Abhishek Kumar Giri

Internship ID: IBMBHAE35970

Date: 20/06/2026

Congratulations on being selected for the **6-week Virtual IBM SkillsBuild Academic Internship 2026 – Gen AI & Cloud Computing**, offered in collaboration with **AICTE**. We are pleased to welcome you to this industry-aligned internship designed to build practical skills in **Artificial Intelligence, Prompt Engineering, AI Application Development, Cloud Computing, API Architecture, and Cloud Deployment**.

This internship features a curated learning experience with hands-on training, guided mentorship, expert-led masterclasses, and real-world AI project development aligned with the UN Sustainable Development Goals (UN SDGs). Upon successful completion of all requirements, you will receive an **Official Internship Completion Certificate.**

The internship is scheduled from **22 June 2026 to 30 July 2026.**

Key Benefits of the Internship

- Access to the Digital Learning Platform with **85,000+ curated industry-relevant courses** on emerging technologies.
- A project-based, collaborative learning environment for enhanced practical understanding.
- Expert-led masterclasses conducted by Subject Matter Experts (SMEs).
- Opportunity to work on **real-world AI projects** demonstrating practical capabilities.
- Earn **industry-recognized certifications** from AICTE and BharatCares to strengthen your professional profile.

This internship will help you build strong capabilities in **machine learning, data analytics, problem-solving, critical thinking, innovation, and applied AI implementation**, enabling you to become industry-ready professionals.

Internship Timeline and Structure

Week 1	**Orientation Session –** Introduction to IBM SkillsBuild platform, internship flow, expectations & tools
	IBM SkillsBuild Learning Plan + IBM Badge
	Masterclass 1: Introduction to AI & Prompt Engineering – Understanding the fundamentals of Artificial Intelligence, Generative AI, Large Language Models, and effective prompt engineering techniques for building AI-powered solutions.
	Masterclass 2: Creating an AI App/Website through Vibe Coding (Part 1) – Learning how to rapidly build AI-powered applications and websites using modern AI-assisted development approaches.
Week 2	**Masterclass 3: Introduction to Cloud & Vibe Coding (Part 2)** – Exploring cloud computing fundamentals while extending and enhancing AI applications through cloud-enabled development practices.
	Masterclass 4: Cloud Data, Persistence & API Architecture – Understanding data storage, persistence mechanisms, APIs, and system architecture required for scalable AI applications.
Week 3	**Masterclass 5: Deploying the App on AWS –** Learning how to deploy, manage, and scale AI-powered applications using cloud infrastructure and deployment best practices.
Week 4	**Project Submission Q&A Session**
Week 5	**Career Connect** Industry-led discussion on role expectations, responsibilities, and career pathways
Week 6	**Additional Learning:** Lifelong Professional Skills

Certification Requirements

- Complete the assigned learning plan on the Digital Learning Platform.
- Develop, submit, and present a final project.
- Adhere to the internship schedule, masterclass participation, and all program guidelines.

Stipend: Please note that this internship is unpaid.

We look forward to your active participation in this dynamic and impactful learning experience.
