Education

- **University School of Information, Communication and Technology, GGSIPU** — Delhi, India
  B.Tech – Information Technology (CGPA: 8.52) — *2023 – 2027*
- **Rajkiya Pratibha Vikas Vidyalaya, Raj Niwas Marg** — Delhi, India
  Senior Secondary (CBSE) – 90.2% — *2022*
- **Government Boys Senior Secondary School, Karawal Nagar** — Delhi, India
  Secondary (CBSE) – 95.2% — *2020*

Skills

- **Languages**: C++
- **Frontend**: React.js, Next.js, HTML, CSS, JavaScript, Tailwind CSS
- **Backend**: Node.js, Express.js
- **Databases**: MySQL, MongoDB
- **Core**: Data Structures & Algorithms, OOP, DBMS
- **Tools**: Git, GitHub, VS Code, Postman, Vercel, Render

Projects

- **Vyntra – Rental Marketplace Platform**: [03/2026 – Present] Live — GitHub
  - Developed a **full-stack rental marketplace** in a team of three using **Next.js, MongoDB, Node.js, and Express.js**, supporting product listings, bookings, and role-based access.
  - Engineered **15+ RESTful APIs** for authentication, product management, bookings, user profiles, and rental workflows.
  - Integrated **OAuth authentication, role-based authorization, Razorpay, and Cloudinary** for secure access, payments, and optimized media management.
  - Built a **responsive UI** using **Next.js and Tailwind CSS** for a seamless cross-platform rental experience.
  - Implemented reusable UI components and structured application workflows to improve maintainability and simplify feature integration.
  - Collaborated on frontend-backend integration, API testing, and deployment to deliver a functional end-to-end marketplace.
- **Attendify – Smart Attendance Tracker**: [07/2025 – 09/2025] Live — GitHub
  - Developed a **full-stack MERN attendance platform** using **MongoDB, Express.js, React.js, and Node.js** for efficient attendance tracking and management.
  - Implemented secure **RESTful APIs with JWT authentication** for user login, authorization, and session management.
  - Built a **real-time dashboard** for attendance marking, filtering, monitoring, and attendance analytics.
  - Added **Excel/PDF report exports** and a responsive **React.js + Tailwind CSS** interface for cross-device usability.
  - Implemented reusable components and dynamic data rendering to streamline attendance management and improve dashboard usability.
  - Integrated frontend components with backend APIs to enable efficient data retrieval, attendance updates, and report generation.
- **Developer Portfolio Website**: [12/2024 – 01/2025] Live — GitHub
  - Developed a responsive developer portfolio using **Next.js and Tailwind CSS**, showcasing projects, skills, and achievements with optimized routing and performance.
  - Designed reusable UI sections and responsive layouts to ensure consistent presentation across desktop and mobile devices.
  - Integrated project links and dedicated content sections to improve navigation and provide recruiters with easy access to technical work and achievements.
- **Text Utility Web Application**: [07/2024 – 08/2024] Live — GitHub
  - Built a **text processing web app** with case conversion, word counting, and a responsive **React.js + Bootstrap** interface.
  - Implemented interactive text transformation features with instant output updates and character/word count calculations.
  - Added reusable components and responsive styling to improve usability across screen sizes and simplify the user experience.

“‘

Certifications

- **Artificial Intelligence – Samsung Innovation Campus**: Completed AI course (Dec 2025 – Mar 2026). Link
- **Vihaan 8.0 Hackathon – IEEE DTU**: Participated and collaborated in a team to develop technical solutions. Link
- **HackShastra Hackathon**: Participated as part of Team Byte Code in collaborative development. Link

Achievements

- **CBSE Certificate of Merit – Computer Science**: Scored **100/100 in Computer Science** in Class XII. Link
- **JEE Mains Qualification**: Secured **95.6 percentile** in JEE Mains and admission to B.Tech (IT) at USICT, GGSIPU.
